

## OUR OLIVE OIL

### • EXTRA VIRGIN OLIVE OIL

Extra Virgin Olive Oil is a 100% natural product considering that it is the juice obtained from the fruit of the olive tree: the olive. Its golden colour is a genuine luxury for the senses, with shades from green to yellow. Its fruity fragrances and flavour with varying intensities reflect the complexity of sensations which olive oil arouses in the senses.

### • OLIVE OIL

As a result of combining golden and soft virgin olive oils with refined ones, it is obtained olive oil. Depending on the virgin olive oil used and the quantity taken, we will get more or less intense olive oils. It is perfect for making smooth sauces and dishes that we do not wish to over-emphasise the flavour of it.

### • OLIVE POMACE OIL

As a result of combining virgin olive oils with refined olive pomace oils, it is obtained a product which, because of its oleic acid content, it is very suitable for fried food with a very high performance.

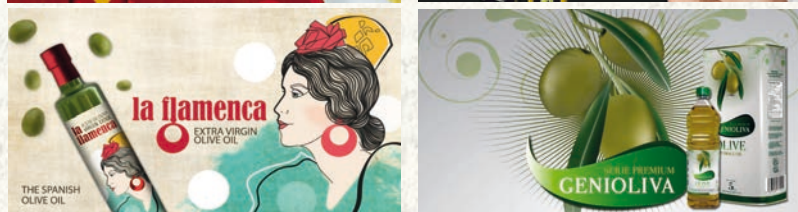

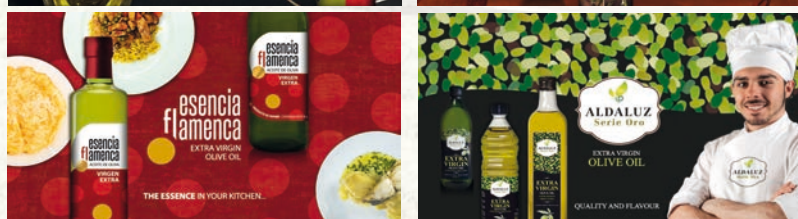

### • BLEND

Our Blends are a perfect combination of different olive oil categories with different use, either for cook, fry or seasoning.

### • ORGANIC EXTRA VIRGIN OLIVE OIL

The highest Extra Virgin Olive Oil quality obtained from ecological production.

### RENEWED DESIGNS FOR OUR ACKNOWLEDGED QUALITY

# AIRES DE JAÉN

From our olive groves for your enjoyment.

# OUR HISTORY

Aires de Jaén is a company with olive oil tradition, where four generations of the López family have devoted themselves to the cultivation, processing and bottling of extra virgin olive oil.

Matías López was the pioneer of this family dynasty since 1945, although it is on 1965 when he acquires the family olive grove property called "Finca Los Badenes".

He instilled his love for the land and the olive grove from generation to generation. Nevertheless, Aires de Jaén, in which it is already joined up the fourth generation, it is located in the heart of the estate that carefully he look after throughout his life.

Mr. López was an enterprising person, lover of his family, his people and his work. In fact, he was awarded the Medal of Merit to work on March the 13th 1968.
